13 years of Youth Exchanges

Youth exchanges are the result of 13 years of cooperation between the Šentjur Youth Center (Development agency Kozjansko), Comité de Jumelage de Saint Florent and Verein zur Förderung Internationaler Beziehungen Neu-Anspach that are connecting youth from Municipality Šentjur (Slovenia), Neu Anspach (Germany) and Saint Florent sur Cher (France).

The first youth exchange was in Šentjur in 2009. Since then, 13 youth exchanges were organized, every year in another Municipality in cooperation with local schools, funded by the European Union.

Young people get the opportunity to live for one week with another family either from Šentjur, Neu Anspach or Saint Florent sur Cher that has a different lifestyle and culture and experience intercultural learning which propels them towards understanding, respect, and acceptance of diversity and uniqueness of each EU nation.
